Patricia L. Nordmeyer	1772	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

1) Responsive to communication(s) filed on 14 August 2006.  
 2a) This action is **FINAL**.                                    2b) This action is non-final.  
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

4) Claim(s) 14-22, 24, 26 and 29-33 is/are pending in the application.  
 4a) Of the above claim(s) 14-21 is/are withdrawn from consideration.  
 5) Claim(s) \_\_\_\_\_ is/are allowed.  
 6) Claim(s) 22, 24, 26 and 29-33 is/are rejected.  
 7) Claim(s) \_\_\_\_\_ is/are objected to.  
 8) Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

9) The specification is objected to by the Examiner.  
 10) The drawing(s) filed on \_\_\_\_\_ is/are: a) accepted or b) objected to by the Examiner.  
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  
 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
 a) All    b) Some \* c) None of:  
 1. Certified copies of the priority documents have been received.  
 2. Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.  
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

#### Attachment(s)

1) <input checked="" type="checkbox"/> Notice of References Cited (PTO-892)	4) <input type="checkbox"/> Interview Summary (PTO-413)
2) <input type="checkbox"/> Notice of Draftsperson's Patent Drawing Review (PTO-948)	Paper No(s)/Mail Date. _____
3) <input type="checkbox"/> Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date _____	5) <input type="checkbox"/> Notice of Informal Patent Application (PTO-152)
	6) <input type="checkbox"/> Other: _____

**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 14, 2006 has been entered.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claims 22, 24, 26 and 29 – 33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites the limitation "said lower opening" in claim 22. There is insufficient antecedent basis for this limitation in the claim. Claim 22 discloses a "first opening" and a "second opening" but does not clarify a lower or an upper orientation of the openings.

Claims 24, 26 and 29 – 33 are also rejected under 35 U.S.C. 112 2<sup>nd</sup> paragraph due to their dependency on the above rejected claim.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 22, 24, 26 and 29 – 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Berthelsen (USPN 3,470,598).

Berthelsen discloses an integral plastic and metal part (Column 1, lines 13 – 15; Figure 1) comprising a metal component (Figure 1, O<sub>R</sub>) having a closed cross section defining an interior and exterior (Figure 13) and having a first opening defining edges (Figure 1, holes on one side of the casing) and a second opening opposite said first opening (Figure 1, the folded edge on the part labeled O<sub>R</sub>) and a plastic component disposed about a portion of said exterior of said metal component (Figure 1, O<sub>B</sub>), a portion of said plastic material disposed through said first opening including a flange extending beyond said edges of said lower opening and into said interior of said metal component for securing said plastic component to said metal component (Figures 1 and 13, wherein the flanges are any plastic that flowed through the holes in the metal strip), wherein said plastic component includes at least one integrally formed connection member extending outwardly therefrom, said at least one connection member having an area defining at least one connection portion formed therein, wherein said at least one connection portion is operable to receive a fastening member so as to permit said plastic component to be fastened to at least one other component (Figure 13, 15) as in claim 22. With regard to claim 24, the flange

is rectangular (Figure 1 and 13, E<sub>14</sub>). As in claim 26, the plastic part includes ribs (Figure 1, the rectangular extension on the lower part of the piece labeled E<sub>2</sub>). The edge of said first opening is curved (Figure 1, holes on one side of the casing), and the flange extends beyond said curved edge of said first opening (Figures 1 and 13, wherein the flanges are any plastic that flowed through the holes in the metal strip) as in claims 29 and 30. As in claim 31, the second opening is defined by a second edge in said metal component, said second edge being folded (Figure 1, the folded edge on the part labeled O<sub>R</sub>). Regarding claim 32, the plastic part includes attachment holes there through (Figure 1, the holes on the parts labeled 14 and 14'). With regard to claim 33, the first opening comprises a series of openings (Figure 1, holes on one side of the casing).

With regard to the limitation of “for allowing a core tool to be inserted into said interior of said metal component during a molding operation” in claim 22, this phrase is a recitation of the intended use. A recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

#### *Response to Arguments*

6. Applicant's arguments with respect to claims 22, 24, 26 and 29 – 33 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia L. Nordmeyer whose telephone number is (571) 272-1496. The examiner can normally be reached on Mon.-Thurs. from 10:00-7:30 & alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Y. Pyon can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
